Source Files Included:

The description of R code for experiments included are provided below:

– "Illustration.Rmd'': This code provide the validation of the proposed approach. This code will generate results in Section 2 and Section 3.

– `CaseStudy.Rmd''`: `This code is associated with Section 4. Note that the dataset`Q22.RData'' is included in the file.

Code for the functions:

– "Scales.R'': function used for scaling input variables for experimental design.

– "Functions.R'': functions used to the proposal algorithms.
